CAREER OBJECTIVE

To utilize my technical and management skills for the growth of the organization as well as to enhance my knowledge about new and emerging trends in the IT sector

EDUCATION

Usha Mittal Institute of Technology <i>Bachelor Of Technology In DataScience</i>	Jan 2021 – May 2024 CGPA: 8.38
Government Polytechnic Mumbai <i>Diploma Engineering In Computer</i>	Aug 2018 – Sep 2020 Percentage: 90.14
Sitaram Prakash High School <i>MH-SSC</i>	Jun 2017 – March 2018 Percentage: 87.40

SKILLS

Languages: C++, Python, JavaScript (ReactJS), HTML/CSS, SQL, Bootstrap, DSA(Basics), Pandas, Numpy, Matplotlib, NodeJS, MongoDB

Tools: ChatGPT, GitHub

Soft-Skills: Time-Management, Team-Work

Certifications: Data Visualization, Android App Development

EXPERIENCE

BRANDING CATALYST PVT. LTD. <i>Web Developer Intern</i>	Jan 2024 – March 2024 Mumbai, India
---	--

- engaged in web development projects, utilizing a diverse set of technologies including CSS, HTML, Bootstrap5, JavaScript, and React.js. Contributing to the creation of responsive and interactive web applications, collaborating with team members to achieve project goals and deliver exceptional user experiences.

PROJECTS

Sales Data Analysis for 2022

- In this project, I conducted a comprehensive analysis of the annual sales data for the year 2022. The main objective was to gain valuable insights into customer behavior and preferences, thereby enabling the company to strategize and drive **sales growth in 2023**.
- Technologies Used: Power Bi, Pandas, Matplotlib, Numpy

Home Price Prediction

- Developed and deployed a machine learning model to predict home prices based on key features such as square footage, location, and amenities. Conducted data preprocessing, exploratory data analysis, and feature engineering using Python and libraries like Pandas and Scikit-learn.
- Technologies Used: Python, Numpy, Pandas

Todo List App

- Developed a web-based to-do list application using NodeJS, ExpressJS, and MongoDB, allowing users to create, manage, and organize tasks with due dates and completion status.
- Technologies Used: Node JS, Express JS, MongoDB (Mongoose), HTML, CSS, JavaScript

Food Delivery Website

- Developed a responsive food delivery website using Node.js and React.js, enabling users to browse local restaurant menus and place orders online.
- Technologies Used: Node JS, Express JS, MongoDB (Mongoose), React JS
